

Tango Reflex[™] Neo - Premium YAG/SLT Laser by Lumibird Medical[®]

December 08th, 2022 - CLERMONT-FERRAND, France - Lumibird Medical[®] announces the launch of their next generation YAG/SLT laser, the **Tango Reflex[™] Neo**, by **Ellex[®]**.

A fully integrated Q-switched Nd:YAG and frequency doubled Nd:YAG laser for anterior-segment YAG and glaucoma indications, **Tango Reflex[™] Neo** features second-generation **Reflex[™]** technology with True Coaxial Illumination (TCI[™]), enhancing visualization of anterior and posterior segments.

New features introduced with this fully integrated laser include **Imprint[™]**, a dynamic heads-up display with real-time view of treatment settings within the binoculars, joystick control of energy settings and up to 2 mm YAG posterior offset, facilitating **PROcap[™]** - Premium Refractive Outcome Capsulotomies.

Matthew Metcalfe, Anterior Segment Laser Product Manager at Lumibird Medical explains, *"PROcap[™] is an alternative approach to Nd:YAG Posterior Capsulotomy, developed to improve the geometry of capsule openings, maximize IOL protection and significantly reduce post-operative iatrogenic floaters."*

Jean-Marc GENDRE, CEO Lumibird Medical says this about the laser, *"Tango Reflex[™] Neo builds on decades of experience within our design and manufacturing teams, delivering an exceptionally high-quality product, which, we believe will be instrumental in advancing the standard of care in clinical practice."*

*The **Tango Reflex[™] Neo**, is Lumibird Medical's latest premium anterior segment laser, with CE mark and USA FDA 510K approval.*

About ELLEX

Since 1985, Ellex have made it their mission to develop the highest quality ophthalmic devices, positively transforming the sight and lives of people across the globe. Today, over 35,000 Ellex ophthalmic laser and ultrasound systems are in use in more than 100 countries around the world, safely achieving consistent ophthalmic outcomes, once never thought possible.

About Lumibird Medical

Lumibird Medical is the medical holding of the Lumibird Group, the global leader in the development of solid-state lasers for scientific and industrial use. It comprises Ellex (Australia and Japan), Quantel Medical (France and Polska) and Optotek Medical in Slovenia and 3 subsidiaries in the United States, India and Nordics (Sweden, Finland and Norway).
